Grade Point Average (GPA)
The GPA is computed by dividing the number of grade points earned by the number of credits attempted. The following grade symbols are not given grade points, and work recorded with any of these symbols is not used in the calculation of grade point averages: AU, CR, NC, H, P, P*, W, MG and X. I grades are not computed until additional work is fulfilled and an appropriate letter grade assigned. The grades and credits of all repeated courses are calculated in the GPA. J grades are not computed until the required work in the same or continuing course is completed; at that time, the total credits for the course are computed in the GPA on the basis of the last grading date.

Spring 2020
The spring 2020 semester was disrupted beginning in March, 2020 by the COVID-19 pandemic. In response, an additional grading basis of Credit (CR)/No Credit (NC) was implemented for spring 2020, and applied to courses if selected by the student. Courses graded Credit (CR) satisfy all degree requirements for undergraduate degree programs. A grade of CR reflects a D or better. For graduate degree programs, a CR grade satisfies all degree requirements. For detailed information pertaining to graduate programs, visit bu.edu/reg.
